

SANTIAGO GARCÉS CHAVARRÍA

Management Consultant | AI-Enabled Market Research | Competitive Intelligence | Pricing Strategy

Medellín, Colombia | Remote | santi.garcesch@gmail.com | linkedin.com/in/santiagogarceschavarria

EXECUTIVE PROFILE

AI-enabled management consultant and market research analyst focused on B2B SaaS, fintech, regulated markets, pricing strategy, and workflow improvement. I produce decision-ready market scans, competitive benchmarks, pricing memos, regulatory market-entry briefs, and executive summaries. My edge combines legal-financial analysis, AI-assisted research workflows, and consulting-style synthesis for teams that need clarity fast.

CORE CONSULTING CAPABILITIES

Market & Competitive Intelligence	Strategy, Pricing & GTM	AI Workflow & Process Improvement
Market landscape, TAM mapping, competitor benchmarking, segmentation, strategic research briefs.	Pricing analysis, packaging strategy, market-entry logic, value creation, executive recommendations.	AI-assisted research systems, document routing, operational triage, process redesign, dashboard-ready reporting.

PROFESSIONAL EXPERIENCE

Founder & Strategy Advisor | Blevine Consulting | Aug 2023 - Present

- Built a boutique advisory practice focused on market research, competitive intelligence, pricing strategy, and AI-enabled workflow design for B2B use cases.
- Produced decision-ready market scans, competitor benchmarks, pricing memos, and executive briefs across AI productivity, fintech, SaaS, and regulated-market themes.
- Designed AI-assisted research and workflow systems using Claude, OpenAI, Python, Google Sheets, and structured delivery frameworks to accelerate synthesis and execution.

Legal & Compliance Analyst | IRIS CF, Compañía de Financiamiento S.A. (SFC-Regulated) | Aug 2025 - Feb 2026

- Managed and coordinated 657+ PwC fiscal-audit requirements across legal, finance, and operations under strict regulatory and audit deadlines.
- Designed an AI-based routing and classification system using Claude API, OpenAI API, and Python, achieving 97%+ assignment accuracy.
- Reduced manual workload by 24+ hours per week and lowered misroute escalations to under 3%, improving audit response speed and accountability.

Independent Financial Markets Operator | Self-Directed | 2021 - 2023; 2025

- Traded futures, options, and crypto markets, building practical exposure to risk, volatility, position sizing, macro drivers, and decision-making under uncertainty.

SELECTED PROJECT EXPERIENCE

- AI-Powered Document Routing System:** Designed a classification and routing workflow for a regulated financial-services environment; processed 657+ audit requirements, reached 97%+ accuracy, and saved 24+ hours/week.
- AI Productivity Tools Market Landscape:** Benchmarked 12 AI productivity players across pricing, positioning, workflow claims, enterprise readiness, and strategic white spaces.
- B2B Workflow SaaS Pricing Strategy:** Redesigned a single-tier SaaS offer into a three-tier pricing architecture at \$49/\$149/\$399 with projected 35-45% ARPU uplift.
- Fintech Regulatory Market Entry Brief:** Compared Colombia, Brazil, Singapore, and the UK across regulatory clarity, open infrastructure, entry friction, and fintech strategy implications.
